

# Nilfisk Ride-on Industrial sweeper

Nilfisk SR 2000

# Top-of-the-line ride-on sweeping

Clogged filter warning system tells the operator that the filter needs to be cleaned in order to obtain perfect dust free sweeping

The large wheels give a smoother ride and allow the machine to mount kerbs without difficulty

When the dirt is really heavy on the ground, a serious approach is needed. The Nilfisk SR 2000, with its large capacity, robust design, and technically advanced features provides fast and efficient cleaning in these heavy-duty applications.

Whether it's a dirty industry factory floor, building site, parking lot or public park, the SR 2000 ensures cleaning that is productive and effective. It is easy and comfortable to operate, and its superb filter system keeps dust to a minimum.

The Nilfisk SR 2000 is truly the king of ride-on sweepers.

- Can carry up to 818 kg of dirt and debris, and dump it to a height of 152 cm
- Two water-resistant panel filters provide an exceptionally large filtering area with dust control to 1 micron in size
- Power steering and adjustable suspension seat as standard
- High temperature warning light indicates that hot items have been swept into the hopper

## Technical specifications

| Description                          | Unit              | SR 2000 P         | SR 2000 D         | SR 2000 LPG    |
|--------------------------------------|-------------------|-------------------|-------------------|----------------|
| Motor power source                   |                   | Petrol 4cyl. 3.0L | Diesel 4cyl. 2500 | LPG 4cyl. 3.0L |
| Motorbrand                           |                   | GM                | Mitsubishi        | GM             |
| Max speed                            | km/h              | 13                | 13                | 13             |
| Productivity rate theoretical/actual | m <sup>2</sup> /h | 25700/18000       | 25700/18000       | 25700/18000    |
