

# K 100

## POLISHING CREAM FOR MARBLES AND CERAMICS

### DESCRIPTION

K100 is a water based, acidic, multifunctional, polishing cream. Specific for the maintenance and restoration of dull surfaces, scratches and water marks. Application unifies surface aspect, while increasing surface gloss matching results obtained by traditional polishing powders on limestone surfaces. Product works chemically and mechanically by reacting with the material hardening the natural structure of the stone, therefore increasing resistance to general foot traffic. Highly recommended on terrazzo and marble agglomerates, enamelled & lapped ceramic surfaces where product will restore brightness and remove surface scratches.

### CAN BE APPLIED WITH

MANUALLY, FLOOR MACHINE 150/175 RPM  
AND ORBITAL WHEEL

### ADVANTAGES

- Fast & effective
- Economical
- High gloss
- Durable
- No wax.

### WHERE TO APPLY

For internal/external marble, terrazzo, agglomerates, limestone, ceramics, enamelled or lapped porcelain stoneware.

### USE

Test on a small area before proceeding, so to ensure product suitability and final result. Apply product to small workable areas at a time. (approx. 2 sqm). Remove all surface debris and previous applied waxes or top coats before applying product. Shake container before use.

Apply product over the area to be treated and add water so to maintain a creamy/pasty mixture. Proceed to buff surface (175 rpm) using a white nylon pad, making sure that the mixture does not dry out. If necessary add water to the mixture. Check gloss regularly and continue until desired gloss is obtained.

Remove all product residue with clean water and squeegee or wet vacuum. Rinse surface.

Note: on extreme honed or consumed surfaces, apply 20/30 gr. of product per sqm and buff with at least 20 passes.

Maintenance: on material with extreme foot traffic, maintain surface with 10/20 gr. of product per sqm and buff with at least 15 passes.

For traditional spray buffing maintenance proceed to use "Neutral Crystallizer" as directed.

### TECHNICAL DATA

ASPECT	: CREAM
COLOUR - ODOUR	: WHITE - ODOURLESS
PH (5% IN WATER)	: 1,5 - 2,5
SPECIFIC GRAVITY (20°)	: N/A
BIODEGRADABILITY	
FLASH POINT	: NOT FLAMMABLE

### COVERAGE

40-50 SQM/KG

### PRE-CAUTIONS

DO NOT ALLOW THE PRODUCT TO DRY DURING POLISHING PHASE .

### SAFETY

R 36/38- IRRITATING TO EYES AND SKIN  
S2-KEEP OUT OF THE REACH OF CHILDREN  
S24/25- AVOID CONTACT WITH SKIN AND EYES .  
S37- WEAR SUITABLE GLOVES

STORAGE : KEEP THE CONTAINER CLOSED AND IN A COOL PLACE .

SHELF LIFE : 24 MONTHS IN THE ORIGINAL SEALED PACKING AND KEPT IN A COOL AND DRY PLACE .

PACKAGING : 5 KG CONTAINERS (4 PER CARTON)
